

# Present and Future of Infosec in Nepal

- Kailash Bohara

# Introduction

Kailash Bohara

Penetration Tester at Eminence Ways

Occasional Bug Hunter

Multiple CVEs assigned

And OWASP Chapter Leader

# Looking Back

OWASP Nepal Chapter started in 2012

Pentester Nepal - 2013.

Threatcon - 2018

BountyBash - 2019

CTF Events -NepHack/HackBack KU

## NEPAL'S CYBERSECURITY INDEX

### Nepal's Cybersecurity Index

Assessed Year	Global Score	Global Rank	Remarks
2014	0.118	25	Global Cybersecurity Index & Cyberwellness Profiles April 2015
2016	0.275	93	Global Cybersecurity Index (GCI) 2017
2017	0.260	109	Global Cybersecurity Index (GCI) 2018
2020	44.990	94	Global Cybersecurity Index 2020

# Nepal- Threat Index

---

- Nepal ranked **94th** out of various countries in Global Cyber Security Index
- Over **1,200 complaints** of cybercrime were registered during an **11-month** period

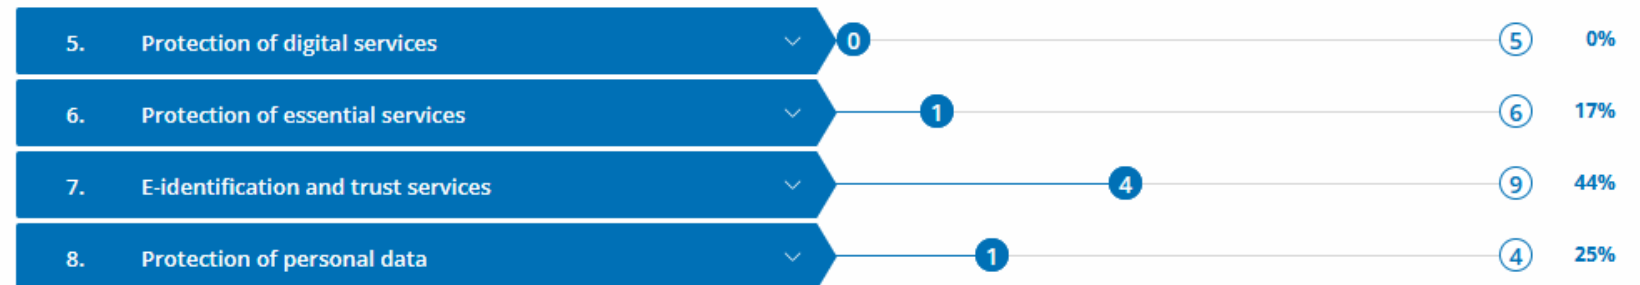

# Indicators

## GENERAL CYBER SECURITY INDICATORS

## BASELINE CYBER SECURITY INDICATORS

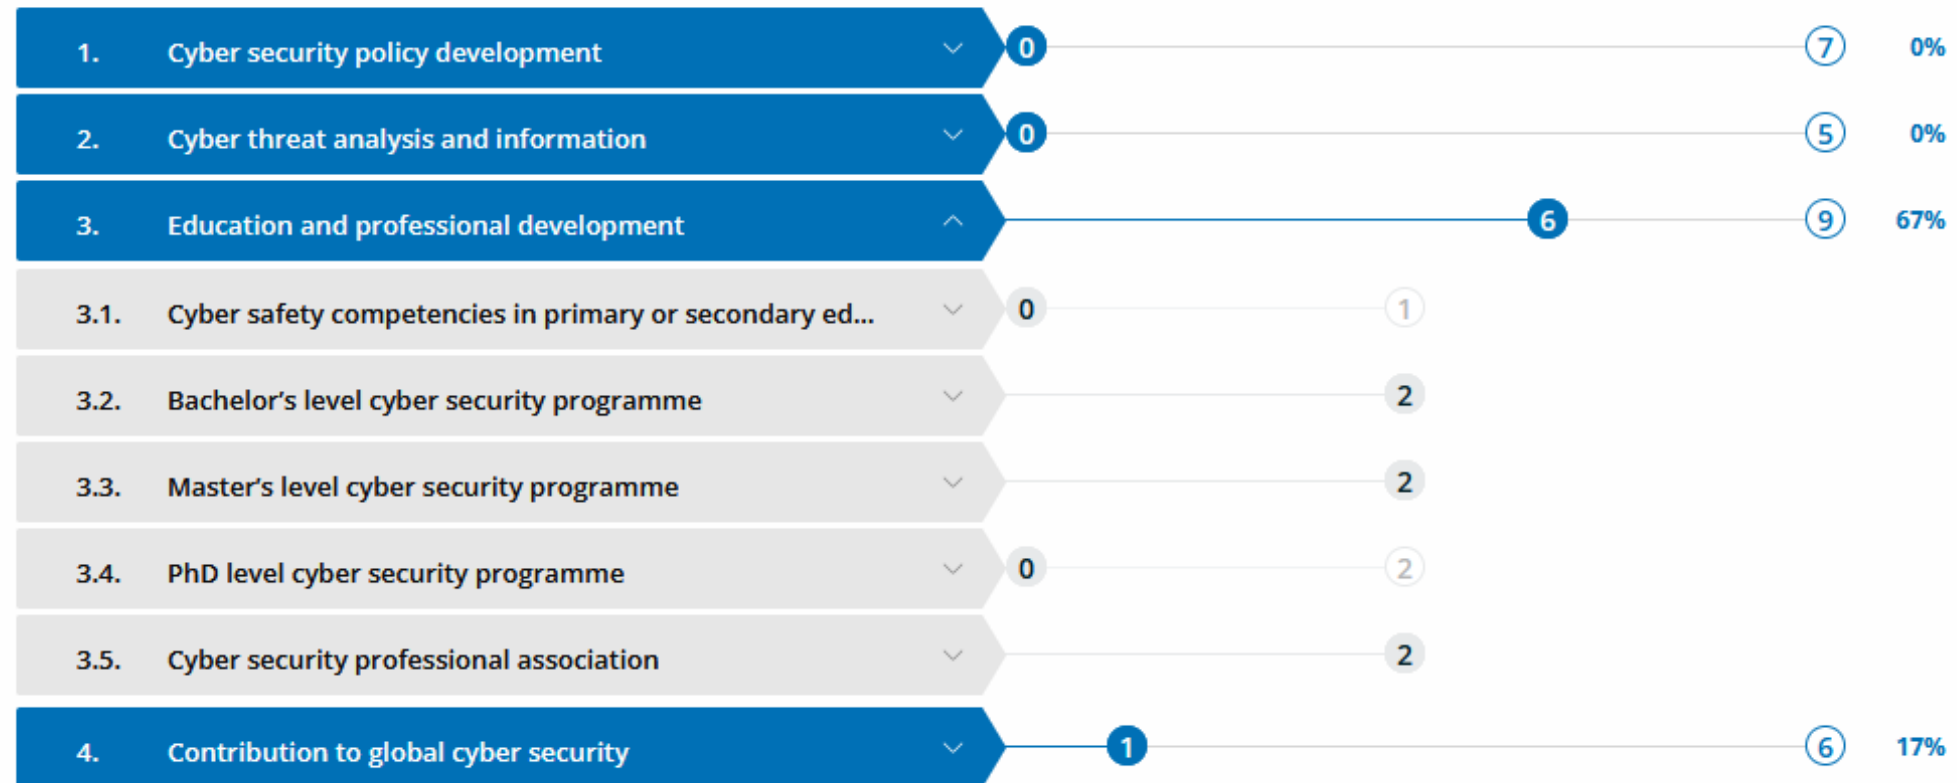

## INCIDENT AND CRISIS MANAGEMENT INDICATORS

# Indicators

## GENERAL CYBER SECURITY INDICATORS

# **Some Positive Aspects**

- Formation of National Information Technology Emergency Response Team) by Government.
- Cyber Security Bill.
- International Security Conferences.
- Educational Institutions with specialized cyber security degree.
- And more...

# Cyber Incidents in Nepal

## Cyber incidents

- Cases of Ransomware/Malware
- Cases of Data Theft
- Compromised Email System
- Phishing Scams
- Social Engineering Attacks
- Website Defaced

## Problems with Forensics

# HOW TO START AS A BEGINNER ?

---

# Approach to Information Security

**OFFENSIVE**

**DEFENSIVE**

# APPLICATIONS

Web Applications

Mobile Application (Android/IOS)

API

Desktop Applications (Thick and Thin clients)

# NETWORK SYSTEMS

Servers

Workstations

Firewalls

Virtualization  
System

Cameras

Domain  
Controller

Printers

Switches

Wireless  
System

Fingerprint  
Devices

And more...

## FOLLOW TESTING GUIDELINES

---

OWASP Web Security Testing Guide

---

OWASP API Security Project

---

Mobile Security Testing Guide (MSTG)

---

NIST Framework

---

OSSTM (Open-Source Security Testing  
Methodology Manual)

# Application Information Gathering

Sublister, Subfinder,  
Amass

Dirbuster, Dirsearch,  
Dirb

Shodan,  
Censys, Google, Github

Wayback Machine

Source code Analyze

# Must Have Tools

Burp Suite

Nessus

MobSF

Frida

Nuclei

reNgine

Nmap

Metasploit

OpenVAS

# Start solving Labs

TryHackMe

HackTheBox

PortSwiggerAcademy

DVWA

VulnHub

CTF

An aerial photograph of a demolition site. A yellow excavator is positioned in the upper center, surrounded by debris and rubble. To the left, a yellow bulldozer is visible. The ground is dark and uneven, with various pieces of wood, metal, and other construction materials scattered around. A semi-transparent white rectangular box with a thin black border is centered over the image, containing the text "How to Prepare for a Job ?".

How to Prepare for a Job ?

# Do

Try	Try to gather Hall of Fames, Acknowledgement Letters, Bounty etc.
Solve	Solve as much as Labs and CTF.
Start	Start writing blogs.
Develop	Develop few handy tools or scripts.
Follow	Like minded persons on twitter, Linkedin, etc

# Certifications

# COMMON DOMAINS OF SECURITY IN NEPAL

Application  
Security

Network  
Security

Information  
Systems Audit

Digital Forensic

Security  
Operations

Incident  
Response

# POSSIBLE AREAS FOR JOB

- Banking and Financial Institutions (Governed by NRB)
- Software Development Companies
- ISP (Governed By NTA)
- Insurances (Governed By Beema Samiti)
- Government Sector
- Telecoms
- Information Security Companies
- National Defence Bodies – (Nepal Army, Nepal Police, CIB)
- Payment Service Providers

# THE FUTURE ?

---

# DIVERSE DOMAINS

Cloud Security  
(AWS, Azure,  
Google, ...)

Threat Hunting

Hardware  
Security  
Assessment

Blockchain  
Security

DevSecOps

IoT Security

ICS Security

Malware  
Analysis

And more...

# POSSIBILITIES WITH US

- Be Hub for security outsourcing
- Have more security jobs as digitization is rapid
- Can have more Bug bounty hunters
- Government led Responsible Disclosures Programs

**THANK YOU FOR BEING HERE.**
